Product Description

- IQF Mango Chunks are fresh Kent mangoes ripened, cored, cut into chunks, individually frozen and then packaged. White Toque's Mango chunks are preserved by individually quick freezing, a process that retains color, flavor and texture like fresh fruit when thawed. Avoid the rather time-consuming and chore of peeling and preparation of fresh mangoes. Mango has substantial levels of potassium, Beta-carotene and vitamin C, while being low in fat and sodium. All that and great taste too!
